Communication Systems Specialists (CSS) is a certified woman-owned business, established in 2005 by Jennie Peterson (Chief Executive Officer/Owner) to provide a broad range of affordable, premium quality low-voltage solutions. Jennie along with partners Chad Peterson (President) and Mark Yonekawa (Vice President of Field Operations) make up our extraordinary executive team.

Customer Service:

Our executive team shares and embraces the philosophy that superior quality at all levels of the organization, strong attention to detail, and exceptional communications are crucial to good customer service. The kind of service we demand and deliver to each and every customer, regardless

of the size or type of project. We are committed to consistently provide you with the highest possible quality products and service so that your first call for low voltage solutions will always be to CSS. We are not content to just live up to your expectations—we strive to exceed them *every time*.

Helping you achieve your Communications goals.

Expertise:

Our executive team, alone, has collectively over 50 years of design and installation experience in the low voltage industry. That experience, along with the additional knowledge our technicians and other employees bring to your project, ensures the kind of attention to detail and quality

you want—the kind of service that exceeds expectations. All of our designs are prepared by a BICSI® Registered Communications Distribution Designer (RCDD®), ensuring that the highest industry standards and technical expertise are applied to each project from the start.

Manufacturers:

Some premier manufacturers we have established relationships with include:

NETGEAR®

We Install Quality!

Company profile

Quality:

"We Install Quality" isn't just our motto, it is our commitment to provide you with superior solutions, experience and service in every facet of every project. All cabling we use is TIA/EIA compliant. Strong working relationships with premier manufac-

turers enable us to install the highest quality products with manufacturer support backing them up. We are an award-winning contractor, committed to providing unsurpassed quality in everything we do.

We offer a variety of cutting-edge communications solutions

Memberships/Certifications:

CSS is a corporate member of BICSI®, Inc., as well as a member of the Minneapolis Building Owners and Managers Association (BOMA). We are a Woman-Owned Business (certified by the State of Minnesota) and a WBE/SBE contractor. We maintain a wide range of other system and installation certifications (e.g.,

Corning® Cable Systems TS LAN Design 500, Berk-Tek, Leviton®, and numerous others). Our technicians and other personnel stay abreast of constantly changing technology through continuing education and special training events so that you can always be assured of cutting-edge, up-to-date solutions.

Community:

We are strongly committed to playing a positive role in the communities where we work and live. CSS actively supports nonprofit and community service organizations such as the Amherst H. Wilder Foundation. We also recycle used cable and metal products (e.g., rack equipment, ladder racking and associated hardware) to keep these materials out of Minnesota's landfills. CSS has recycled well over 100,000 pounds of abandoned cable since 2005.
