# 3000 Communications System for Business

Imagine your business with a single system that can manage a complete range of converged voice and data requirements over a single network, while offering the feature-rich phone solution that meets the needs of your busy office. Now you can enhance your communications at home with the right system, the first time, with Mitel® 3000 communications system.

#### The Mitel 3000 Communications System Business Solution Offers:

- An affordable path to convergence, allowing you to reduce operating expenses and streamline business operations.
  - A progressive telephone system with all the features and functionality of a traditional multi-line voice solution.
  - A host of leading-edge standards that will offer voice and data connectivity.
  - Easy expansion capabilities offering a progression of voice and data options that do not require you to replace your entire phone system.
  - The ability to connect existing analog equipment including fax, cordless telephones, credit card machines and more.
  - Remote extension capability—ideal for small, remote or home office—simply connect the Mitel 5330 IP Phone or Mitel 5110 Softphone via the Internet to the Mitel 3000 Broadband Module for a direct connection to the office phone system.
- Provide employees and / or strategic retail areas with their own line and voice mailbox.
  - Use the speakerphone for hands-free calls.
  - Avoid unwanted calls through Do-Not-Disturb feature.
  - Always know when you have a message waiting with the message indicator light and remote message notification.
  - Increase productivity by providing teleworkers with a remote extension to stay connected to the office through the Internet.
  - Everyone in the office can be set up to have his or her own line and voice mailbox.
  - Complement the system with devices such as a fax machine, and / or credit card machine.
  - Reduce expenses and streamline business with Unified Communications, which incorporates Unified Messaging, Click to Dial and the 5110 Softphone.

#### By leveraging the powerful features of the Mitel 3000 communications system, you can:

- Utilize the auto attendant for professional greetings and after hour answering / courtesy services.
- Conduct 3-way conference calls.
- Always know who is calling with Caller ID that shows name and number.
- Capture important information during calls by using the Record-A-Call feature.

#### Mitel 3000 is a scalable, voice-centric communications solution catering to up to 52 users in business settings such as:

Law Firms  
Accountants Offices  
Insurance Agencies  
Small Health Care Facilities  
Architecture Firms  
Real Estate Offices  
Consulting Firms  
Public Relations Agencies  
Restaurants  
Retail  
Country Clubs and Golf Courses  
And more

### Mitel 3000 Feature Phones

The Mitel 3000 communications system offers standard analog, digital and VoIP telephones that allow easy access to powerful system features such as conference, transfer, personal speed dial and voice messaging.

#### INT 1400 4-Button Cordless Phone\*

900 MHz digital interface cordless phone. Features include 4-line access, Caller ID, voice message indication, dedicated transfer, hold, redial and special buttons, 3 ring tones and vibrate.

#### Mitel 4110 Telephone 8-Button Phone

Digital telephone with eight programmable keys, data port, headset port and speaker.

#### Mitel 4120 Telephone 16-Button Phone

Digital telephone with 16 programmable keys, backlit LCD display, and Direct Station Select (DSS) expansion connection for optional DSS console.

#### Mitel 5330 IP Phone

Full-duplex hands-free telephone with an intuitive large backlit menu display, 15 programmable keys and 2-port Switch (for PC connection).

#### Mitel 5110 Softphone – IP-based software application

An IP extension on your PC / laptop that has a similar user-interface to the 5330 IP Phone, with the added flexibility of being completely portable.
